

ESG – Environmental, Social, Governance

The ESG course offers a comprehensive and sophisticated examination of the sustainability principles and practices that are reshaping the business landscape.

Participants will gain insights into how companies can make a positive impact on the environment, society, and governance, fostering a responsible and sustainable future.

Target Audience

This course is designed for all corporate audiences and can be customized or condensed for specific groups.

Implementation support

MODO developed this course with the expertise of sustainability consultants, CSR experts, social impact advisors, supply chain sustainability officers, and renewable energy specialists.

Course content

ESG: Sustainability in business

This module is a deep dive into integrating sustainability within business strategies, enhancing the triple bottom line concept to generate positive impacts on the environment, society, and governance.

E for Environmental

Explores the advantages of renewable energy, energy efficiency, and sustainable mobility in advancing towards a circular economy.

S for Social

Examines the challenges and opportunities of embedding social responsibility into business strategies, highlighting the importance of human rights and ethical supply chains.

G for Governance

Analyzes how responsible governance fosters long-term value through robust risk management, transparent reporting, and corporate integrity.

Final Test

A comprehensive evaluation to test your participant's grasp of the material and reinforce the concepts learned throughout the course.

Embrace the role of a change leader and immerse yourself in the sustainability practices that are revolutionizing the business world!

MODO ready-made courses are designed to meet your company's needs.
