

XSTORE

This interactive course quickly trains store staff on the essential skills needed to use the Oracle XStore checkout system.

Targeted modules develop the skills needed to ensure a high-quality customer experience right out of the box.

Target audience

This course is aimed at point-of-sale staff who use the XStore checkout system.

Implementation support

This course was implemented by MODO with the support of XStore Specialists.

Course content

XStore Overview

General introduction to the Oracle XStore checkout system, in which key features and benefits for point-of-sale staff are presented.

Front Office Basics

Management of daily operations: opening and closing the till, sales and returns.

Front Office Extended Transaction.

Management of complex transactions: promotional sales, special discounts and customer loyalty.

Front Office Advanced

Exploration of advanced features of the checkout system for total control over sales transactions and personalization of the shopping experience.

Back Office Basic

Introduction to the administrative features of the XStore system: inventory management, vendor management, daily reporting, and product configuration.

Back Office Advanced

Advanced management features: sales analysis, purchase planning, and advanced inventory management.

Prepare staff for cash system management and improve your store performance with the XStore system.

MODO ready-made courses are designed to meet your company's needs.
